

#45 Cutting Oil

#45 Cutting Oil is a dark, heavy-duty active sulfur cutting fluid for all types of relatively severe machining operations. The product contains both active and inactive sulfur, chlorine, and sulfurized fat for excellent cutting and machine performance.

Typical Physical Specifications:	
Viscosity:	
SUS @ 100° F	210
Flash Point, °C (°F)	176 (350)
Total Sulfur Wt. %	3.5
Active Sulfur Wt. %	1.5
Sulfurized Fat Wt. %	10
Chlorine Wt. %	2.1
