

Engine Last 10w30

Engine Last 10w30 is designed for high mileage engines with 75,000 miles or more. This formulation is a unique blend of base oils and additives addressing typical concerns of higher mileage engines.

Features/Benefits:

- Helps reduce oil consumption
- Conditions seals to help prevent leakage
- Excellent oil film strength to protect worn engine parts
- Increases cylinder compression
- Detergency combined with dispersants control engine deposits

Typical Physical Specifications:	
SAE Grade	10w30
API Service Classification	SL
API Gravity @ 60° F	31
Viscosity Index	135
Viscosity:	
cSt @ 100° C	10.4
cSt @ 40° C	70
SUS @ 210° F	61
SUS @ 100° F	326
Pour Point, °C (°F)	-35 (-31)
Flash Point, °C (°F)	205 (400)
Sulfated Ash Wt. %	0.6
Color, ASTM	2
