

## MultiTrans III ATF

MultiTrans III Automotive Transmission Fluid is manufactured from high-quality base oils and specially selected additives which provide superior thermal and oxidation resistance. It inhibits the formation of gum, sludge, lacquer and foam, and provides excellent protection from rust, corrosion and wear.

MultiTrans III Automatic Transmission Fluid is a multi functional power transmission fluid for use in a wide variety of automatic transmission and in industrial anti-wear hydraulic systems.

### Applications/Specifications:

MultiTrans III ATF Meets or Exceeds the following specifications:

- Ford Mercon
- GM Dexron III
- Allison C3, C4
- Caterpillar TO-2
- Hydraulic Systems

Typical Physical Specifications:	
ISO Grade	32
API Gravity @ 60° F	33
Viscosity Index	165
Viscosity:	
cSt @ 100° C	7
cSt @ 40° C	35
SUS @ 210° F	49
SUS @ 100° F	164
Pour Point, °C (°F)	-48 (-49)
Flash Point, °C (°F)	175 (350)
Color, ASTM	Red
