

Special SAE 30

Special SAE 30 is a premium single viscosity type crankcase oil designed for older gasoline and light-duty engines in passenger cars, trucks, and farm tractors, where a single viscosity grade meets operating requirements.

Features/Benefits:

- Protection against acid, varnish, sludge and internal rust
- Excellent high-temperature performance minimizing oxidation and “hot engine” deposits
- Improved foaming control

Applications/Specifications:

Recommended for all types of diesels except where CD oils are specified by the manufacturer.

Typical Physical Specifications:	
SAE Grade	30
API Service Classification	CC/SJ
API Gravity @ 60° F	28
Viscosity Index	100
Viscosity:	
cSt @ 100° C	11.4
cSt @ 40° C	100
SUS @ 210° F	64
SUS @ 100° F	463
Pour Point, °C (°F)	-22 (-8)
Flash Point, °C (°F)	215(420)
Sulfated Ash Wt. %	0.6
Color, ASTM	2.5
