

UNITED GASOLINE ENGINE OIL

SAE 10W-30

United Gasoline Engine Oil SAE 10W-30 is formulated with highly refined conventional base stocks and a shear-stable viscosity index improver. It utilizes an advanced detergent and dispersant package to provide excellent engine cleanliness. A multi-grade oil for use in gasoline-powered passenger cars and light-duty vehicles, it is approved for use wherever API SQ or ILSAC GF-7A oils are specified. Always check your owner's manual for appropriate viscosity grade.

Features:

- Provides protection against low-speed pre-ignition (LSPI), which is a phenomenon that can lead to pre-ignition knock in turbocharged, direct injection gasoline engines.
- Delivers exceptional wear protection of engine parts through advanced anti-wear additives to maximize engine life.
- Features a high level of dispersancy to protect against sludge, engine rust, and corrosion under severe operating conditions.
- Features a high viscosity index to ensure easy cold starting and protective films for engine parts at high temperatures.
- Protects against oil thickening, maintaining oil flow to reach critical engine parts quickly.
- Provides excellent engine cleanliness.
- Enhances the life of the catalyst and after-treatment systems in gasoline engines.
- Meets or exceeds the latest oil requirements of gasoline engine manufacturers.
- Offers low volatility for reduced oil consumption.
- Recommended for older vehicles and a few late-model trucks and cars. Often these vehicles have a larger 6-cylinder or V-8 high-performance engine.

TYPICAL SPECIFICATION DATA

UNITED GASOLINE ENGINE OIL SAE 10W-30	
SAE GRADE	10W-30
Viscosity @ 100°C (cSt)	10.5
Viscosity @ 40°C (cSt)	69.0
Viscosity Index	140
Density (lb/gal)	7.19
CCS Viscosity (cP)	5,500
Pour Point (°C)	-36
Pour Point (°F)	-33
Flash Point (°C)	221
Flash Point (°F)	430

Meets or Exceeds:

- API SQ,SP, SN Plus, SN, SM, SL, SJ
- Chrysler MS-6395
- ILSAC GF-7A, GF-6A, GF-5, and prior
- JAMA
- Resource Conserving
