

United Heat Transfer Oil is a premium oil formulated with a high-quality base oil and antioxidant additives to address oxidation concerns common to hot oil systems. This fluid provides good rust and corrosion prevention on metal surfaces. United Heat Transfer Oil's outstanding thermal stability and oxidation resistance results in long service life of both the fluid and the equipment.

Features:

- Good corrosion and rust prevention
- Excellent thermal stability
- Prevents deposits at high temperatures found in most heat transfer systems
- Exceptional temperature stability

Applications:

- Recommended for use in heat transfer systems where a mineral oil is heated and circulated through a heat exchanger.

TYPICAL SPECIFICATION DATA

UNITED HEAT TRANSFER OIL	
ISO GRADE	22
Viscosity @ 100°C (cSt)	4.5
Viscosity @ 40°C (cSt)	22.0
Viscosity Index	118
Density (lb/gal)	7.11
Pour Point (°C)	-18
Pour Point (°F)	0
Flash Point (°C)	219
Flash Point (°F)	426

Product Availability:

- 55 Gal
- 265 Gal
- Bulk
- Item # 191499
- Item # 210967
- Item # 192968
